

Online Registration

Register and Manage Visitors Online

Register visitors online using our redesigned Online Registration module. Easy to configure and even easier to use, the web application will allow your staff to register and manage their visitors from their web browser. Utilizing the latest in web technology, the software presents the user with a slick, streamlined interface that people of all skill levels will appreciate.

The new Online Registration module integrates seamlessly with Lobby Track Premier Edition or Event Track Premier Edition [sold separately].

For more information, visit www.jollytech.com.

Simple Configuration and Installation

Installation takes only minutes and configuration is simple. The application was optimized to run with a minimal footprint and can typically be installed on an existing server yet still support even the most demanding of workloads.

Minimum System Requirements

- Microsoft Windows Server 2008
- Microsoft Windows Server 2003
- Microsoft Windows Vista
- Microsoft Windows XP
- 1 GHZ processor
- 2 GB RAM
- 4 GB hard disk space
- .NET Framework 4.0

Product Highlights

Register Visitors Online

Staff members simply log in to the intranet web site and register their visitors as needed.

Manage Past and Future Visits

Each user's home page will display a summary of their past and upcoming visits from which they can modify future visits and view or duplicate past visits.

Configurable Approval Process

Require visits to be approved by any number of supervisors or other staff members. E-mails are automatically sent as the approval process progresses.

Automatic Host Notification

An e-mail is automatically sent to the host when their visitors arrives.

Integrate with Active Directory

Simplify user management by integrating with your Active Directory server. Users can log in using their Windows domain user name and password.

Integrate with Lobby Track

Visitors registered through Online Registration are immediately visible at Lobby Track workstations.

Customizable Solution

Jolly professional services teams are available to work with you to customize the software to your requirements or assist you with deployment.
