DX850
LABEL DISPENSER

NEW!

Primera's new DX850 Label Dispenser helps you quickly and easily peel and present labels from rolls.

The built-in precision micro-switch detects when a label has been removed. Then, the next label is quickly and automatically fed forward, ready to remove. You'll be able to apply labels much more quickly than ever before. A built-in LED display counts up or down, indicating how many labels you've applied or how many you have left.

Fast and Easy Label Dispensing

The DX850 Label Dispenser automatically peels and presents self-adhesive labels one at a time. It replaces manual label peeling, making your production lines faster and more efficient.

DX850 is robust and reliable, made in the USA of heavy-duty sheet metal and machined steel. It is also one of the few label dispensers available with UL, UL-C, CE listings, FCC approval and RoHS compliance.

Features

» Easy to use – no screws or clamps to adjust

» Full range of motion – left or right justification of labels is not necessary; operator can adjust to the most convenient position

» High-precision, reliable micro-switch activation – nothing to clean or get dirty; works with virtually any label including clear labels

» LED display – with built-in up/down counter for labels dispensed

» Universal Power Supply – simply change line cord for use in any country
