*1 Print speed (Pages Per Minute) is calculated when printed on A4 plain paper in the fastest mode. Print speed may vary depending on system configuration, print mode, document complexity, software, type of paper used and connectivity. Print speed does not include processing time on host computer.

*2 The maximum number of printed pages per month based on the performance capabilities of the printer, including ISO rated print speeds and paper handling capabilities.

*3 Default mode in accordance with ISO7779 for MFPs

*4 In accordance with ISO 24711/24712. Actual yields will vary for reasons including images printed, print settings, temperature and humidity. A variable after the ink from the first ink is used. Cartridges is used for printing the printer. Ink is used for both printing and print head maintenance. All inks are printing.

Innovative Replaceable Ink System

Convenience is a top priority. That's why Epson's Replaceable Ink Pack System (RIPS) is designed for easy, hassle-free ink replacements. With each standard ink pack giving you up to 3,000 pages in black or colour, or 5,000 pages for the large ink packs, and the option to purchase the XL black ink pack that prints up to 10,000 pages, you minimise the downtime needed to replace the inks and enjoy greater cost savings.

In addition, Epson's DURABrite™ Ultra ink delivers laser-like quality prints that are water- and smudge-resistant.

* In accordance with ISO 24711/24712. Actual yields will vary for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink colour. A variable amount of ink remains in the cartridges after the "replace cartridge" signal. Part of the ink from the first cartridges is used for priming the printer. Ink is used for both printing and printhead maintenance. All inks are used for both black and colour printing.

Built for the Environment

Energy Saving

Demonstrating Epson's ongoing commitment to cut the environmental impact of printing, the new WorkForce Pros are low-power units that use fewer supplies and much less energy than comparable laser models – reducing environmental impact without compromising on output.

Both the Epson WF-C5290 and WF-C5790 are remarkably low TEC values of just 0.2kWh. What's more, power consumption during standard operation is kept at a minimum with the WF-C5290 using only 22W and the WF-C5790 at 25W. These are significantly lower than laser copiers/printers. And unlike conventional laser copiers/printers, they use no heat and are more environmentally friendly.

Superior Productivity

Automatic Duplex

Both printers support automatic duplex printing of up to 15 ppm for A4, reducing paper wastage. The single-pass duplex ADF unit (up to 50 sheets) equipped on the WF-C5790 enables convenient scanning and copying of multi-page documents.

Versatile Paper Handling

Both printers can be upgraded with an additional paper cassette to support up to 830 sheets input capacity. Paper of different sizes can be placed in the different cassettes for automatic selection. The rear tray enables the use of special media such as photo media, envelopes and labels.

USB Host Function

The WF-C5790 comes with a USB port for printing, scanning and saving faxes directly using the memory devices.

LCD Screen

Experience easy set-up and PC-less operation with a 2.4" colour LCD screen on the WF-C5290 and 4.3" colour touch screen on the WF-C5790.

Versatile Connectivity

Network Connectivity and Standalone Capability

Equipped with Ethernet, Wi-Fi, RJ-11 fax (WF-C5790), Wi-Fi Direct, NFC and USB 2.0, these printers are perfect for office environments. What's more, Wi-Fi Direct acts as an access point, allowing up to four devices to connect directly to the printer at a time.

Epson Connect Enabled

Advanced Management and Workflow Solutions

Get the most out of your printers with an extensive range of software solutions.

Fleet Management

Epson Device Admin

A free software that allows you to control, analyse and manage your printer fleet centrally from one intuitive interface, designed to increase productivity and reduce costs.

Print Management

Epson Print Admin

A server-based solution that creates a secured centralised printing, scanning and copying environment through user-authentication. Advanced reporting functions can help organisations reduce printing costs and run Managed Print Programmes.

Document Management

Document Capture Pro*

Easily scan, view, edit, save and transfer scanned documents. The software optically recognises barcodes, characters and blank pages in scanned documents to separate them into different folders. It allows you to create up to 30 customised job settings, making multiple scan jobs a breeze.

*Document Capture Pro (Windows), Document Capture (Mac OS X)

Document Capture Pro Server

The WF-C5790 is compatible with Document Capture Pro Server, making it easy to seamlessly manage documents. Document Capture Pro integrates into document management and cloud storage systems, enabling you to capture, enhance, edit and distribute scanned documents effectively throughout your business.

Integration with Third-party Solutions

Epson Open Platform

Gain complete control of your printing operations via a range of third-party solutions that enable you to adapt the WorkForce Pro printers to meet specific and changing business requirements with solutions for print and document management.

Robust Security Features

Secured Printing with PIN Release

Print confidential documents by setting a PIN to a print job for release on the printer panel.

IP Address Filter

Secure your documents by preventing unauthorised devices from connecting to the printer.

Panel Admin Mode

Set a password to access and change administrator settings for the printer. This prevents unauthorised users from changing the printer settings.

Limited Access Function (WF-C5790 only)

Reduce risk of information leaks by limiting the access to functions for up to 10 user accounts.

LDAP Address Book (WF-C5790 only)

Prevent information leaks by using the address book registered in the LDAP server to accurately select recipient E-mail addresses.
